

# Special Features for “Functional Coating”

※As of Oct. 18, 2018. In random order. Exhibitors and products may differ from the actual ones at the show.

## SILCERA COAT9010

High hardness and high non-adhesion system ceramic coatings.

OSAKA GAS CHEMICALS CO., LTD.

## Orgacon Conductive Polymer

Orgacon is transparent conductive polymer made from PEDOT/PSS.

AGFA MATERIALS JAPAN

## Superhydrophilic Coat Agent

By coating on exterior window films/painted steel plate, it will remove dirt when it rains.

NCC CO., LTD.

## NATOCO SELF-HEALING TM CLEAR

Soft and Strong Paint. Not only repairing scratches, it also has high extensibility and resistance to abrasions.

NATOCO CO.,LTD

## Planar Source for High Temperature Evaporation

Provides excellent film thickness distribution.

HITACHIZOSEN CORP.

## Web Coating System "FOSA MX"

Ideal for high-volume production and can be configured with up to three coating drums.

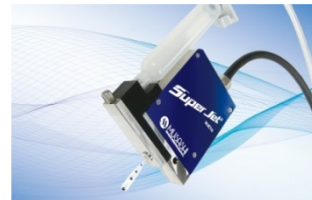

VON ARDENNE GMBH

## Lab/Pilot Coater

Compact coater for printing, coating, laminating on film, paper, and gold leaf etc.

MATSUO SANGYO CO., LTD.

## Ultra-High-Speed JET Dispenser "SuperJet"

It will shorten cycle time to the maximum and contribute to ultimate production efficiency.

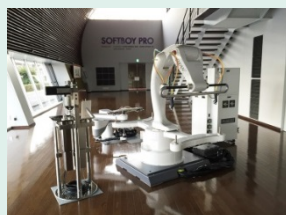

MUSASHI ENGINEERING, INC.

## F-Polymer Coating

- Low friction coefficient
- Surface releasability
- Corrosion resistance
- E-insulation.

NIKKEN COATING INDUSTRY CO., LTD.

## Coating Robot "SWAN"

Suitable for small-quantity and multi-kind production. Possible to manage automation operation.

TAKUBO ENGINEERING CO., LTD.

## Color Electrodeposition Coating

High designability coating with the process of color electrodeposition coating on plated metal/resin.

SHIMIZU CO.,LTD.

## Measurement System "Enovasense"

Non-destructive & non-contact measurement for the thickness of coating/plating.

OPTO SCIENCE INC.
