

# Special Features for "Optical Component"

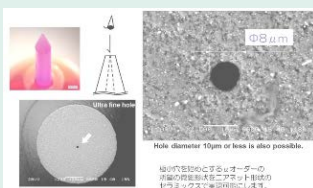

※As of Oct. 18, 2018. In random order. Exhibitors and products may differ from the actual ones at the show.

**Cylindrical Lens**

Application : Semiconductor, laser processing machine, cinema-scope etc, our cylindrical lens are provided in world-wide.

NATSUME OPTICAL CORP.

**Precision Ceramic Parts**

To achieve precision and complex shape of ceramics by our CIM technology.

MIYAGAWA KASEI INDUSTRY CO., LTD.

**MRT14AG2**

The results without changing quality in 95% and 122 degrees F.Temperature for over 1,000H.

MORITA OPTICS CO., LTD.

**Structural Ceramics**

Structural Ceramics, Alumina, Zirconia, Steatite.

X-ONE TECHNOLOGIES CO., LTD.

**Etalon**

Used for narrow-band filter for optical communications, semiconductor exposure equipment, and excimer laser.

NITTO OPTICAL CO., LTD.

**Fusion Splicers**

FITEL has the line-up of Fusion Splicers for splicing LDF (Large Diameter Fiber).

FURUKAWA ELECTRIC CO., LTD.

**Aspherical Lens**

High precision aspherical lens. We guarantee our quality by using laser profiler (VeriFire Asphere) or ultra-high precision 3D profiler.

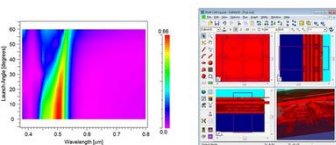

NATSUME OPTICAL CORP.

**MRT-MICOR-1x1**

1x1mm, up to 0.3mm size Right Angle Prism available. Also Micro Penta 2mm is ready.

MORITA OPTICS CO., LTD.

**Photonic & Network Design Software: RSoft**

It offers a full spectrum of photonic and network design automation solutions.

CYBERNET SYSTEMS CO., LTD.

**Translucent Ceramic Parts**

It has combines the control and excellent translucency and strength to the optimal size of the crystal grains.

MIYAGAWA KASEI INDUSTRY CO., LTD.

**Steatite**

Higher strength than normal porcelain. Also high insulation & high frequency characteristics under high temperature.

X-ONE TECHNOLOGIES CO., LTD.

**Tools for Fusion Splicing**

FITEL has the tools for preparing fiber like fiber cleaver, fiber stripper.

FURUKAWA ELECTRIC CO., LTD.

And more related products available at the show!
