

Highly-functional Material Week TOKYO 2022

December 7_(Wed) - 9_(Fri) 2022 | Makuhari Messe, Japan

Post Show Report

Consists of 7 shows

FILMTECH JAPAN

PLASTIC JAPAN

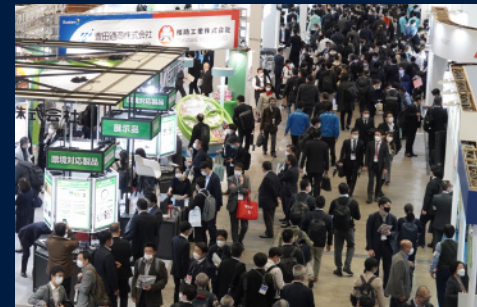

METAL JAPAN

CERAMIC JAPAN

Adhesion & Bonding Expo

Paint & Coating JAPAN

Sustainable Material Expo

Show Outline & Figures

World's leading show for advanced material industry

Highly-functional Material Week is world's leading material show and the comprehensive B-to-B trade show for **Advanced Materials & Related Equipment** held twice a year in Japan (Tokyo and Osaka).

The show aims to provide a platform for professionals from across Japan, Asia, and the world to negotiate and a network for the future of highly-functional material business.

Exhibitor Title	13th Highly-functional Material Week TOKYO
Dates	Dec. 7(Wed) – 9(Fri), 2022
Time	10:00 - 18:00 (10:00 – 17:00 on last day)
Venue	Makuhari Messe, Japan
Consisting Shows	• 13th FILMTECH JAPAN • 11th PLASTIC JAPAN • 9th METAL JAPAN • 7th CERAMIC JAPAN • 6th Adhesion & Bonding Expo • 5th Paint & Coating JAPAN • 2nd Sustainable Material Expo
Concurrent Shows	• 32nd FINETECH JAPAN – World's Leading Display Industry Show • Photonix 2022 – 22nd Int'l Laser & Photonics Expo

Visitor Profile

Quality visitors from 41 countries/regions gathered!

I'm here to find new technologies and some opportunities to help our project and future development. I think everything is perfect and it's like pre-COVID period. Lots of experts are here, so we can have a face-to-face discussion. Everything is arranged so well and I think people should come here and look for what they want to get.

- Apple

We visited to investigate the technology and supply chain for equipment manufacturers related to display-related production elements. The exhibition hall was large and there was a lot to see. There are also some possible applications in optics, coatings, and films that we will be looking at.

- SAMSUNG DISPLAY

Japan is a global technology powerhouse, and we are here to see and learn about sustainable technology. As the trend toward ESG and SDGs, Japan has a wealth of knowledge, especially in terms of material development and technology, and it was amazing to learn so much about that. I suggest that many Korean companies and related professionals will come and learn a lot from here.

- Hansol Paper

List of Countries/Regions of International Visitors

	Austria		Japan		Singapore
	Belgium		Jersey, C.I.		Spain
	Brazil		Kenya		Sri Lanka
	Canada		Korea, Republic of		Sweden
	China		Kyrgyzstan		Switzerland
	Czech Republic		Lithuania		Taiwan
	Denmark		Malaysia		Tanzania, United Republic of
	Finland		Nepal		Thailand
	France		Netherlands		Turkey
	Germany		New Zealand		U.A.E.
	Hong Kong		Pakistan		United Kingdom
	India		Philippines		United States
	Indonesia		Poland		Viet Nam
	Italy		Portugal		

Exhibitor Profile

International exhibitors got positive results

IPMS has been here for several years and we try to show our technology on this kind of fair because we think it is the right place to be. It's a great atmosphere so it's very good to see the people again after such kind of a long COVID phase. The fair is extremely large and widespread - so many different topics. It's really interesting to see all that and to present our technology.

- Fraunhofer

This is our first time to exhibit at CERAMIC JAPAN. And it's basically very worth being here and I have great partners here. As far as I can say we could attract a good number of visitors. So we are pretty sure that we will expand our booth next year.

- LITHOZ GmbH

We joined the booth this time because we want to sell our products in Japan, and want to get more known, and want to show our customers who have reached and finally chosen our products among many options. The visitors are very interested and very polite, and we have very interesting meetings here.

- Schunk Ingenieurkeramik GmbH

United States

What to catch-up?

Cutting-edge technologies showcased

- Over 6,000 exhibits showcased

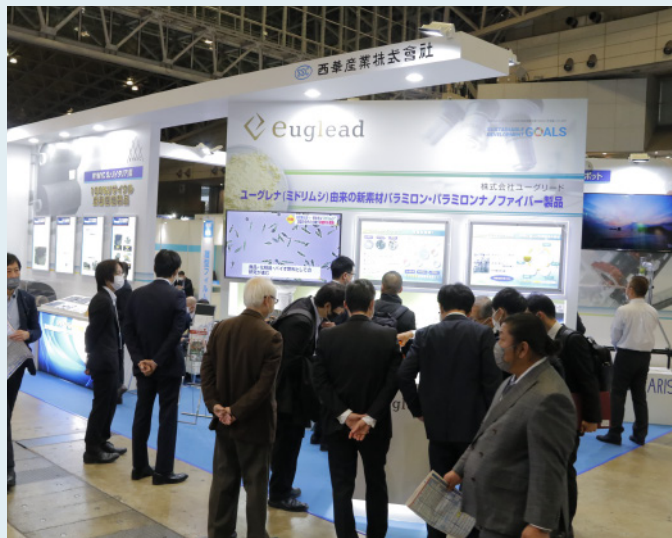

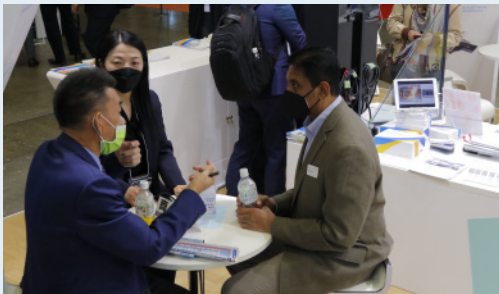

- Hot topic: Sustainable Materials got huge attraction from the industry

What to catch-up?

A lively venue for face-to-face business meetings

Even though the impact of COVID-19 still exists, the desire for face-to-face business meetings is growing. The show had an enthusiastic venue that reminded everyone of this fact.

Concurrent Event

Gathered world renowned industry leaders

• Conference

During the show period, world renowned industry leaders delivered speeches about latest technologies, market trends and various strategies.

Including Special Sessions, Keynote Sessions, Technical Sessions and Exhibitors' Product/Technology Seminars, 60 sessions were held throughout the show period. The conference attracted 9,602 attendees during 3-day period.

Details of all the sessions can be viewed on the [online conference program](#).

• Executive Party

Receptions were held on Dec. 7 and Dec. 8 to facilitate networking among executives of the industry from exhibiting firms and organisations, speakers from keynotes and other conference sessions, etc., actively discussing the future development of the materials industry.

Highly-functional Material Week

**OSAKA
2023**

Dates: May 17 (Wed) -19 (Fri) 2023
Venue: INTEX Osaka, Japan
Consists of 7 Shows

11th
FILMTECH JAPAN OSAKA
— Highly-functional Film Expo —

11th
PLASTIC JAPAN OSAKA
— High-performance Plastic Expo —

10th
METAL JAPAN OSAKA
— Highly-functional Metal Expo —

8th
CERAMIC JAPAN OSAKA
— Highly-functional Ceramic Expo —

6th
Paint & Coating JAPAN OSAKA
— Highly-functional Paint & Coating Expo —

7th
Adhesion & Bonding Expo OSAKA

3rd
Sustainable Material Expo OSAKA
— SUSMA —

Concurrent show: **Photonix 2023** OSAKA
23rd Int'l Laser & Photonics Expo

Highly-functional Material Week

**TOKYO
2023**

Dates: October 4 (Wed) -6 (Fri) 2023
Venue: Makuhari Messe, Japan
Consists of 7 Shows

14th
FILMTECH JAPAN TOKYO
— Highly-functional Film Expo —
